

Module 5

**// All-on-4. All-on-6.
Complete rehabilitation //**

Course Lecturer

Roman Gudyma is a practicing dental implant surgeon with 13 years of experience. He is a follower of MALO clinic. Dr. Gudyma is the founder of Educational Centre Dentaro Study Club, the principal dentist of Dentaro Garden Clinic, the founder of dental laboratory Dentaro Lab. Roman Gudyma is in demand as dental implant surgeon in 15 cities in Ukraine. He implements international experience in implant surgery development in Ukraine as well as advises colleagues all over the country.

About the course

All-on-4 treatment concept was introduced 35 years ago in MALO clinic. This concept is relatively new in Estonia, but many are afraid to transition from simple cases to complex.

In this course you are going to master:

- Classic All-on-4 treatment concept technique by Malo
- Complete protocol for All-on-4 treatment technique
- All-on-4/ All-on-6 treatment technique in critical cases

Your surgeries will last up to 1.5 hour. You are going to learn more than just to insert four implants in a jaw; rather, you will understand the concept philosophy. Thus you will be able to use the acquired skills in any clinical case.

Dr. Gudyma will take you by the hand and help you understand all the intricacies of these methods

COURSE OVERVIEW

- Incisions, flap folding
- Placement of implants according to the Malo template
- Multiple units
- Drilling and placement of implants according to the template
- Taking impressions
- Fixation of the structure
- Service of the structure
